MANSON CREEK UPDATES JADE SAMPLE PREPARATION PROGRESS AND ANNOUNCES FINANCING

Calgary, Alberta - Manson Creek Resources Ltd. (TSX.V: MCK) ("Manson", or "the Company") is pleased to announce progress towards finalizing its evaluation of first pass samples from its summer exploration work at the DJ Jade project.

Two of the Company's executives have recently returned from the 2017 Zi Gang Cup Jade and Stone Works Exhibition, held in Suzhou, Jiangsu province, China. While there they had an opportunity to present an initial suite of some of the DJ Jade project's samples and consult with some of the world's most recognized Jade carvers, including both Chinese and International artists. In addition, market research was conducted to evaluate current market trends including rough and final product prices, and some specialized tools were procured to complete sample preparation.

Manson expects to have a final range of representative sample specimens cut, polished and photographed for dissemination within the coming weeks.

The Company also announces a non-brokered private placement of up to 1 million Units, at a price of \$0.20 per Unit. Each Unit consists of one common share and one half of a common share purchase warrant. Each full common share purchase warrant (a "Warrant") will entitle the holder to purchase an additional common share at a price of \$0.30 per share for a period of two years following closing.

The Units are to be offered on a non-brokered basis by way of private placement to accredited investors and all securities issued under the offering will be subject to a hold period of four months plus one day from the date of closing. A finder's fee of 5% may be paid to eligible agents upon closing. This financing is subject to TSX Venture approval.

On Behalf of the Board of Directors,
"Jean-Pierre Jutras"

Jean-Pierre Jutras,
President/Director
